Re: State "Q" 1 A  
Sec. 8-17-36  
West Lovington Pool

Gentlemen:

During the casing leak survey of the Lovington field in June 1957 Mr. E. Engbrecht of the Hobbs OCC office found the following condition existed at subject well:

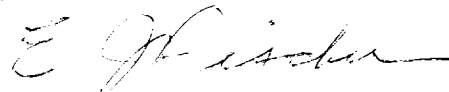

<u>ANNULUS</u>	<u>PRESSURE, psig</u>
10 3/4" x 7 5/8"	50
7 5/8" x 5 1/2"	50
5 1/2" x 2"	50
2"	50

On venting the 5 1/2" x 7 5/8" annulus to zero gauge pressure the 7 5/8" x 10 3/4" annulus decreased to zero gauge pressure during the same time interval. The OCC therefore, must assume that a leak exists in the 7 5/8" casing.

You are hereby directed to contact the Commission office in Hobbs to outline a program (C-102) for further testing or remedial work to correct this situation.

Yours very truly,

OIL CONSERVATION COMMISSION

E. J. Fischer  
Engineer District 1
