17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This was a re-entry attempt of the Alsabrook No. 1 Holder and Ross State A drilled to a T.D. of 4089. We re-entered the hole and could not get below 900 feet because of the red beds. We propose to plug the well in the following manner:

25 sacks of cement at the base of the surface pipe at approx. 300 feet.

105 sacks in the top of the pipe and a proper marker with well name and location on same.

clean and level location to approx. natural location. You will be notified so this location can be inspected.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
