RE : State VE Well Number 1, Unit letter P-31-17S-36E, API 30-025-03954

Gentlemen:

The above referenced well site was checked in attempt to release the location. The following items must be corrected.

1. The location has a open cellar, railroad ties, poly pipe, fencing, a production tank, and separator. The location and the tank pad also needs leveling.
2. Well was plugged in September 1996

You are hereby directed to bring this location in compliance prior to March 8, 2001. This is the second notice of non-compliance with Rule 202 . Rule 202 B paragraph 3 states that the location will be restored as soon as practical but no later than one year after the completion of plugging operations. If you have any questions feel free to call me at 505-393-6161 Ext. 106.

Sincerely,

A handwritten signature in cursive script that reads "Johnny Robinson".

Johnny Robinson  
Deputy Oil & Gas Inspector
