

NEW MEXICO OIL CONSERVATION COMMISSION

FORM C-103
(Rev 3-55)

MISCELLANEOUS REPORTS ON WELLS

(Submit to appropriate District Office as per Commission Rule 1106)

Name of Company Bishop Canyon Oil & Gas Corp.		Address Box 2016, Hobbs, New Mexico				
Lease Carter	Well No. 1	Unit Letter N	Section 32	Township 17	Range 39	
Date Work Performed	Pool			County		

THIS IS A REPORT OF: (Check appropriate block)

- ☐ Beginning Drilling Operations ☐ Casing Test and Cement Job ☐ Other (Explain):
☒ Plugging ☐ Remedial Work

Detailed account of work done, nature and quantity of materials used, and results obtained.

December 7, 1956 ran Schlumberger Radioactivity Log from 4995' to 4160'. Perforated with four shots per foot from 4156' to 4166'. Went in below tubing and treated with 500 gallons mud acid. Injection pressure was so high when acid was put in, the acidizing company recommended we not frac for in their opinion we would be unable to get any sand in the formation. We spotted 50' of cement in the bottom and 10' cement plug in the top of the intermediate string.

Placed well marker in the top cement plug, cleared location and ready for inspection.
