DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

RECEIVED

On August 10, 11, 12, 1962, I spotted 100' cement plug from T.D. 4061' to 4761'. Mudded hole back to 4000'. 7" casing was stuck, knuckled 7" casing off 3700'. Pulled same. Spotted 120' cement plug 3800' to 4010'. Mudded hole to 3500'. Spotted 100' cement plug 3200-3300'. Mudded hole to 1200'. Pulled 1200' 4-5/8" casing. Spotted 100' cement plug 1200' to 1250'. Mudded hole to 710'. Spotted 30' cement plug 640' to 710'. Mudded hole to 20'. Set 20' cement plug to surface. Set marker, and cleaned up location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company **Tam Boyd**

Address **510 N. Texas Avenue**

Artesia, New Mexico

By **Tam Boyd**

Title **Operator**

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the specific procedures for recording transactions, including the use of standardized forms and the requirement for all entries to be supported by appropriate documentation.

3. The third part addresses the role of the accounting department in monitoring and reconciling the records, ensuring that they are up-to-date and accurate at all times.

4. The fourth part discusses the importance of regular audits and reviews to identify any discrepancies or areas for improvement in the record-keeping process.

5. The fifth part provides a summary of the key points discussed and reiterates the commitment to maintaining high standards of record-keeping throughout the organization.
