New Mexico State Conservation Commission
Box 1545
Hobbs, New Mexico

Attention: Mr. Roy Yarborough

Dear Mr. Yarborough:

Enclosed please find notice of Intention to Change Plans and Report On Result Of Plugging Of Well, both pertaining to the E. J. McCurdy Jr., State A, No. 1, located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 16, T18S, R32E, NMPM, Lea County, New Mexico.

As you will note in the reports it was our intention to fully plug and abandon this well. However when we learned it was impossible to pull the 10-3/4" casing we decided to complete as a water well, first seeking the approval of the Commissioner of Public Lands for the State of New Mexico.

We petitioned for his approval prior to notifying your office of our intention to change plans. Had our request been refused we would have carried on as originally planned. Since however Mr. John Miles has given his approval for a commercial water permit under the SE $\frac{1}{4}$ of Section 16, T18, R32, we now beg your acceptance of our changes. These are submitted to you after a conversation with your local representative of the New Mexico State Conservation Commission.

With kind regards.

Yours very truly

E. J. McCurdy Jr.
