This well was drilled to total depth of 4972' without encountering any commercial shows of oil or gas. At 4725', well was tested and showed no oil and a slight odor of gas. At 4825', well swabbed dry, and at 4972' swabbed 3 barrels of water per hour on 24-hour test.

Another cement plug (20 sacks) will be spotted in the bottom of the 8-5/8" casing from approximately 920' to 860' and a 4" pipe marker extending 4' above the ground cemented in the top of the hole with 10 sacks, leaving all the 8-5/8" casing in the hole. THE HISTORY OF THE UNITED STATES

1776-1876

The history of the United States is a story of growth and change. It begins with the first settlers who came to the New World in search of a better life. They found a land of opportunity, but also a land of conflict. The struggle for independence from Britain was a long and hard one, but it was worth it. The United States was born, and it grew. It became a nation of free men and women, a nation of opportunity. It was a land where anyone could make their fortune, and where anyone could become a citizen. The United States was a land of hope, and it was a land of dreams.
