

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

1. The first step is to identify the problem or goal. This involves understanding the current situation, identifying the problem, and setting a clear goal. 2. The second step is to gather information. This involves researching the problem, identifying relevant data, and consulting with experts. 3. The third step is to develop a plan. This involves identifying the steps needed to solve the problem, prioritizing tasks, and allocating resources. 4. The fourth step is to implement the plan. This involves executing the tasks, monitoring progress, and making adjustments as needed. 5. The fifth step is to evaluate the results. This involves comparing the actual results to the goal, identifying areas for improvement, and documenting the process.
