SUBJECT: P&A of Shipp #1 SWD
Sec 17, T17S, R37E

Dear Mr. Stogner:

Our records do not indicate that the Abo perfs have been squeezed. You will need to pull the retrievable bridge plug at 5300' and cover the abo zone with CIBP w/35' sand, then squeeze the San Andres perfs. The remaining procedure is adequate.

Very truly yours,

Jerry Sexton
Supervisor, District I
