New Mexico Oil Conservation Commission F. O. Box 871 Santa Fs. New Mexico

Re: Application for Dual Tubingless Completion State of New Mexico "Q" Well No. 5, Lea County, New Mexico.

Attention: Mr. A. L. Forter, Jr.

Centlemen:

Attached is TEXACO's application for dual tubingless completion for the State of New Mexico "O" Well No. 5, located 2080 feet from the east line and 460 feet from the south line, Unit 0, Section 25, T-17-5, R-34-2, Lea County, New Mexico. TEXACO plans to complete this well as an oil completion in the Vacuum (Plinebry and Glorieta) Pools. It is anticipated that all zones will be oil completions and will flow initially. Approval has been granted previously by the New Mexico Cil Conservation Commission for these zones in TEXACO Inc.'s State of New Mexico "O" (NCT-1) Well No. 20.

Also, attached is a copy of the plat showing the area immediately surrounding TEXACO's State of New Sexico "O" Lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

d. G. Alevina, Jr.

Williams .

Assistant District Supt.
