RE: DOWNHOLE COMMINGLING
NEW MEXICO "O" STATE NCT-1 NO. 11
UNIT F, SECTION 36, T-17-S, R-34-E
VACUUM FIELD
LEA COUNTY, NEW MEXICO

Dear Sir:

Texaco Inc. respectfully requests Administrative approval to commingle production from the Abo, Wolfcamp and Penn pools in the wellbore of the New Mexico "O" State NCT-1 Well No. 11 in accordance with NMOCD Rule 303-C. The Abo, Wolfcamp and Penn have previously been approved for downhole commingling in the Vacuum Pool.

This well meets all prerequisites for downhole commingling, as described in NMOCD Rule 303-C, 1a (1-7). The ownership of these zones is common, including working interest, royalty, and overriding royalty. These zones have been commingled on adjacent leases and no incompatibility of the fluids have been found. New perforations in the Wolfcamp (10,003'-10,045') and Penn (10,123'-10,170') will be commingled with existing perforations in the Abo (9140'-9241') and Wolfcamp (9601'-9974').

All Offset Operators (list attached) have been notified of this application by copy of this letter. Required data by NMOCD Rule 303-C,2 for Administrative approval to downhole commingle is

Mr. R. L. Stamets
Division Director

attached. Allocation of production from the well will be submitted with the potential test after commingling.

Yours very truly,

W. B. CADE
District Operations Manager

WELL No 11
WELL BORE DIAGRAM

All distances must be from the outer boundaries of the Section.

Operator Texaco Inc.			Lease New Mexico "O" State NCT-1		Well No. 11
Unit Letter F	Section 36	Township 17-S	Range 34-E	County Lea	
Actual Footage Location of Well: 1980 feet from the North line and 1780 feet from the West line					
Ground Level Elev. 4003 GR	Producing Formation *See Attached		Pool **See Attached		Dedicated Acreage: 80 Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.
