Attention: Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen:

Re: APPLICATION FOR DUAL  
COMPLETION - STATE H-35  
WELL NO. 10

We forward herewith application in duplicate for authority to effect a dual completion in the Vacuum Glorieta and Vacuum Blinbry pools in our State H-35 Well No. 10, located in Unit G, Section 35, T17S, R34E, Lea County, New Mexico. The application refers to Order No. MC-1314 as authority for a similar dual completion in the same two reservoirs. In addition, we refer to Case No. 2924 which was set for hearing October 30, 1963. We are uncertain whether the two cases mentioned above are adequate authority for administrative approval of this application. In the event that they are not, we should appreciate your setting this matter for hearing at your earliest examiner hearing date. Electric and/or radioactivity logs will be filed upon completion of the well.

We are forwarding two copies of the application to your Hobbs District Office. We also are forwarding one copy by Certified Mail to each of the offset operators listed on the application.

1. Has the New Mexico Oil Conservation Commission heretofore authorized the multiple completion of a well in these same pools or in the same zones within one mile of the subject well? YES 5 NO     

2. If answer is yes, identify one such instance: Order No. **MC-1314** ; Operator, Lease, and Well No.: **Tidewater Oil Company State "F" Well No. 5**

3. The following facts are submitted:

|                                                      | Upper Zone              | Intermediate Zone | Lower Zone              |
|------------------------------------------------------|-------------------------|-------------------|-------------------------|
| a. Name of Pool and Formation                        | <b>Vacuum Glorieta</b>  |                   | <b>Vacuum Blinberry</b> |
| b. Top and Bottom of Pay Section (Perforations)      | <b>5950-6000 (Est.)</b> |                   | <b>6350-6700 (Est.)</b> |
| c. Type of production (Oil or Gas)                   | <b>Oil</b>              |                   | <b>Oil</b>              |
| d. Method of Production (Flowing or Artificial Lift) | <b>Flowing</b>          |                   | <b>Flowing</b>          |

4. The following are attached. (Please mark YES or NO)

Yes a. Diagrammatic Sketch of the Multiple Completion, showing all casing strings, including diameters and setting depths, centralizers and /or turbolizers and location thereof, quantities used and top of cement, perforated intervals, tubing strings, including diameters and setting depth, location and type of packers and side door chokes, and such other information as may be pertinent.

Yes b. Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and the names and addresses of operators of all leases offsetting applicant's lease.

Yes c. Waivers consenting to such multiple completion from each offset operator, or in lieu thereof, evidence that said offset operators have been furnished copies of the application.\*

No d. Electrical log of the well or other acceptable log with tops and bottoms of producing zones and intervals of perforation indicated thereon. (If such log is not available at the time application is filed, it shall be submitted as provided by Rule 112-A.)

5. List all offset operators to the lease on which this well is located together with their correct mailing address.

|                                  |                 |                          |
|----------------------------------|-----------------|--------------------------|
| <b>Mobil Oil Company</b>         | <b>Box 1400</b> | <b>Hobbs, New Mexico</b> |
| <b>Getty Oil Co. (Tidewater)</b> | <b>Box 249</b>  | <b>Hobbs, New Mexico</b> |
| <b>Texas Co., Inc.</b>           | <b>Box 708</b>  | <b>Hobbs, New Mexico</b> |

\* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
