New Mexico Oil Conservation Commission P. O. Box 871 Santa Fe, New Mexico

Re: Application for Dual Tubingless Completion, State of New Mexico "O" (NCT-1) Well No. 15, Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Attached is TEXACO's application for dual tubingless completion for the State of New Mexico "O" (NCT-1) Well No. 15, located 560 feet from the east line and 1800 feet from the south line, Unit I, Section 36, T-17-5, R-34-E, Lea County, New Mexico. TEXACO plans to complete this well as a dual tubingless oil completion in the Vacuum (Glorieta and Blinebry) Pools. It is anticipated that all zones will be oil completions. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in TEXACO Inc.'s State of New Mexico "O" (NCT-1) Well No.22.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's State of New Mexico "O" (NCT-1) Lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

J. G. Blevins, Jr.

J. G. Blevins, Jr.
Assistant District Superingendent

Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will rhen be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard protation unit in either or both of

the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
