The Oil Conservation Commission has been organized to conserve the oil resources of the State of New Mexico. The Commission is composed of representatives of the oil industry, the State, and the public. The Commission's duties are to study the oil resources of the State, to develop plans for the conservation of these resources, and to administer these plans. The Commission has been authorized to acquire land, to construct roads, and to operate oil fields. The Commission has been successful in its efforts to conserve the oil resources of the State. It has acquired land, constructed roads, and operated oil fields. The Commission has been successful in its efforts to conserve the oil resources of the State.

Yours very truly,

Oil Conservation Commission

John A. Ryan

Chairman
