Re: Release of Plugged Well
Marathon State #1-0
Section 4, T19S, R35E

Gentlemen:

On March 11, 1987, the above plugged well location was inspected by OCD Field Inspector, R.A. Sadler, and the location was cleaned up to our satisfaction.

In view of the fact that this well was re-entered and replugged in 1982 and according to Mr. Brian Sirgo, your company has undergone reorganization and you have no actual records on the plugging of this well, the OCD will assume it was plugged as stated on Form C-103 filed September 27, 1982.

The well is hereby released.

Very truly yours,

OIL CONSERVATION DIVISION
