Re: Final Approval
Marathon State Well No. 1
Unit 0 Section 4-T19S-R35E

Gentlemen:

Recently an inspection was made of the above captioned location and it was found that the tie downs had not been cut off or removed as required by the Commission.

Please advise when this work has been done, and another inspection will be made. If the location is found to be in compliance with Commission Rules and Regulations, Form C-103 will be approved without further delay.

Very truly yours,

OIL CONSERVATION COMMISSION

Leslie A. Clements
Oil & Gas Inspector
