			500
			3859'
			5600

This well originally drilled by Pennzoil United as their State 25 Well #1 in 1964. Completed in the Spencer-Penn.Field, and plugged & abandoned 3-23-72. We propose to clean out to top of 8 5/8" at 1020' and tie back into the present 8 5/8" with a string of 8 5/8" casing and then clean out to 7200', and test the Paddock formation from 7000' back to 6750'. After reaching depth of 7200' we propose to straddle test the zones of interest from 6750 to 7000'. If the zones are productive we will run 5 1/2" casing to total depth of 7200' and attempt a completion.
