November 24, 1964

New Mexico Oil Conservation Commission P. O. Box 2088 Santa Fe, New Mexico

> Re: Application for Triple Tubingless Completion, Dated November 4, 1964, State of New Mexico "N" Well No. 8, Lea County, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

Movember 4, 1964, requested authorization to complete State of New Mexico "N" Well No. 8 in the Vacuum (North Abo, Wolfcamp and Upper Pennsylvanian) Pools. Subsequent to making the application, completion attempts in the Upper Pennsylvanian Pool indicated the zone as being non-commercial and logging surveys indicated the Glorieta Pool as being prospective. Therefore, TEXACO Inc. respectfully requests cancellation of the subject application and authorization to tubingless complete the State of New Mexico "N" Well No. 8 in the Vacuum (Glorieta, North Abo and Wolfcamp) Pools.

Attached is "Application For Multiple Completion", diagrammatic sketch of the proposed completion, lease plat and logs. It is proposed to complete the Glorieta zone in the former Upper Pennsylvanian casing string after abandoning the Upper Pennsylvanian zone. A copy of this revised application is being sent to each offset operator by registered mail.

Yours very truly,

H. D. Raymond

Assistant District Superintendent
