RE: Vacuum Glorieta West Unit

We have several wells in the Vacuum Glorieta pool within the boundary of your Vacuum Glorieta West Unit that were not taken into the unit.

The Glorieta zone is shut in most of these wells but the New Mexico L State #7-A 1-18-34 and the New Mexico O State NCT-1 #13-N 36--17-34 were still producing on our last report. These wells will need to be shut in.

Please advise the status of these wells and plans for abandonment of the Glorieta.

Our records show the following wells as Glorieta but have been shut in.
