We propose to use the following strings of Casing and to cement them as indicated:

\* 800 Sx. Class "C" 4% gel, followed by 200 Sx. class "C" Neat. Neat to contain accelerator.

\*\* 200 sx. Class "C" 8% gel, followed by 150 sx. class "C" Neat.

\*\* Externally clean casing & install centralizers & scratchers from 5950' to TD. Cement with 1200 sx. Class "C" 4% gel, with friction reducing agent in the first 500 sx. Follow cement with 500 gallons medium strength acetic acid.
