Gentlemen:

Please find attached Tidewater's application for triple completion (conventional) of our "GO" State F Well No. 8 as a producer from the North Vacuum Abo, Vacuum Wolfcamp and Vacuum Upper Pennsylvanian Oil Pools. Diagrammatic Sketch of the proposed triple completion and plat showing locations of all offset wells and leases are also attached. Production will be through parallel strings of 2-3/8" tubing. Electric log will be submitted after completion of the well.

It is respectfully requested that administrative approval of this application be granted.

Respectfully submitted,

TIDEWATER OIL COMPANY

\* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

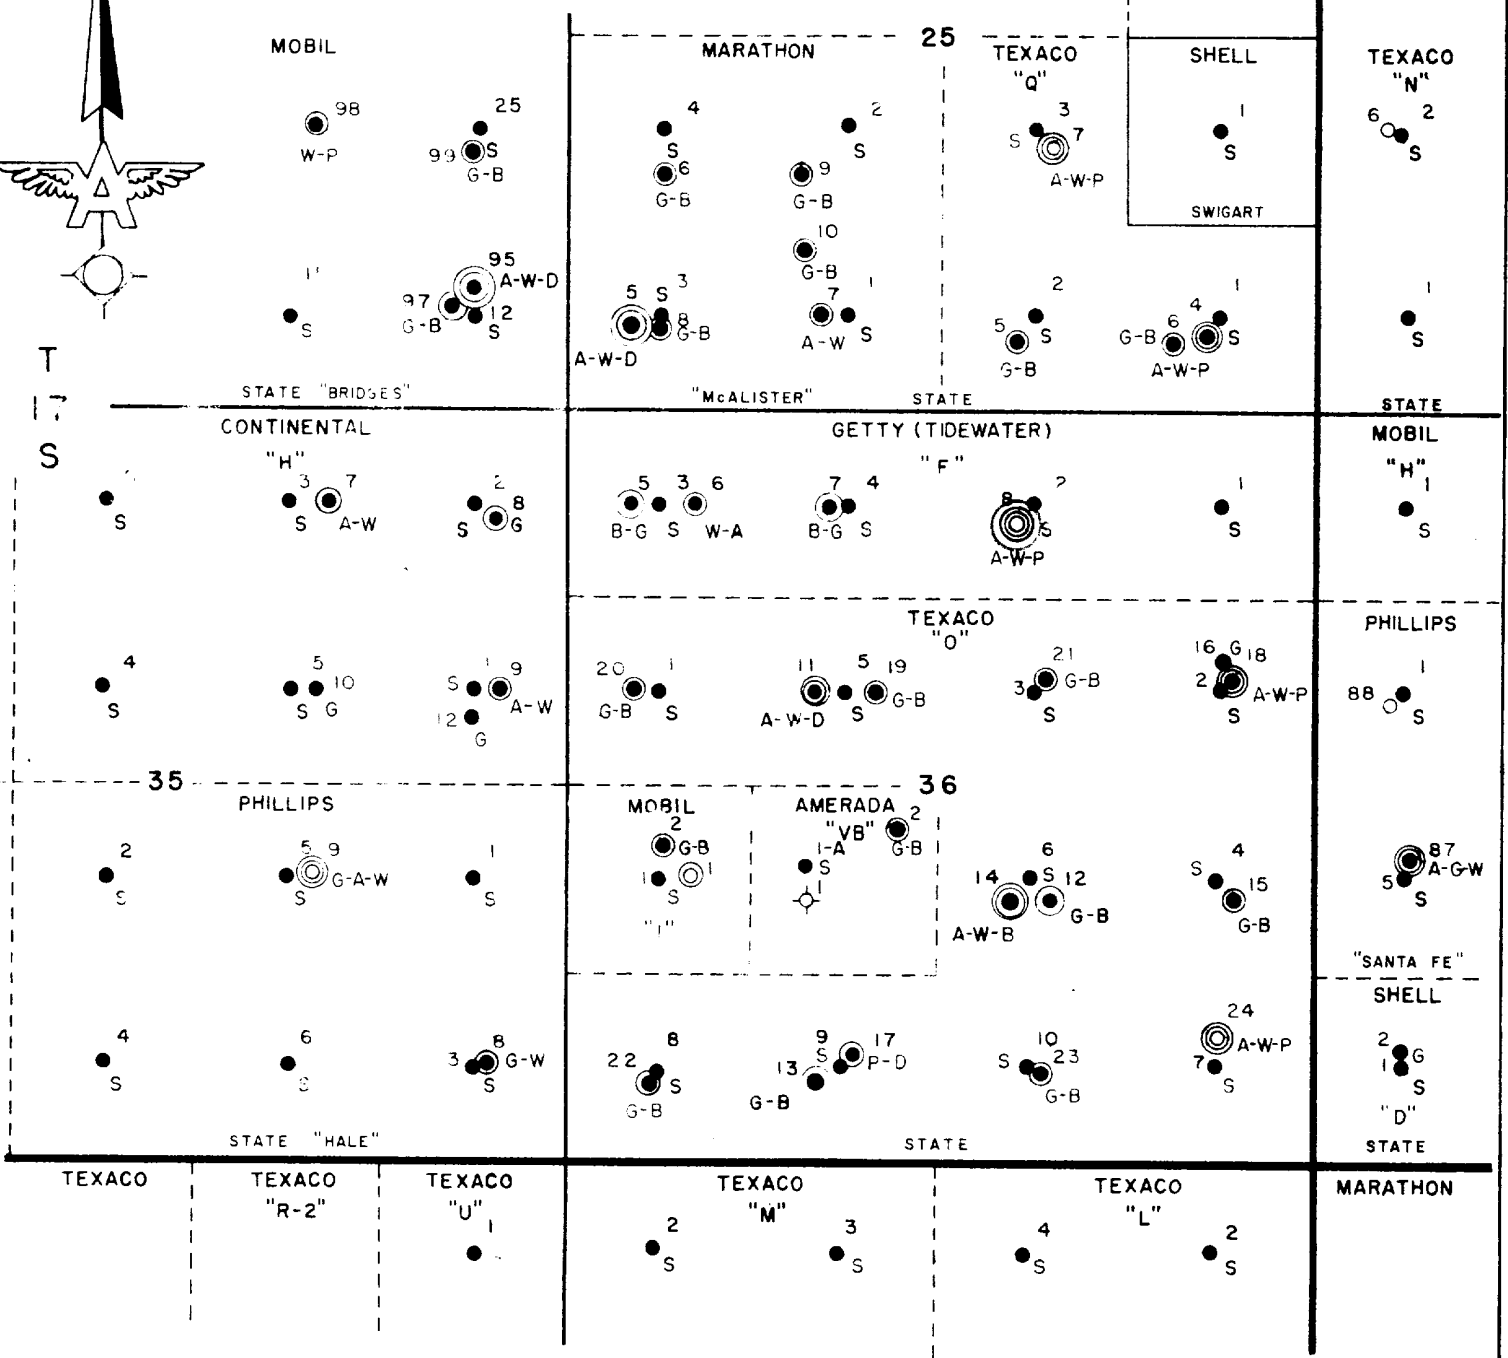

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
