Re: TA Wells

We are returning unapproved Form C-103 requesting extension of TA status for several wells in your East Vacuum GB SA Unit.

Under Rule 202 B the District office is authorized to grant TA status for one year with a one-year extension. This has already been done for the wells in question. Any further extensions must be approved by our Santa Fe office. At the present time they are not addressing this issue. Until our policy on TA wells is revised, once you have received the District approval for the two years which we are authorized to give, it will not be necessary to submit a C-103 for further extensions.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
