Re: NMOCC Case No. 3797
Order No. R-3449

In order to comply with NMOCC Order No. R-3221, the captioned well has been converted to a Salt Water Disposal well. A HOWCO- R-3 packer was set at 4550 feet on 2-3/8 inch internally plastic-coated tubing. The annulus between the tubing and casing was loaded with a ^{non-}corrosive inhibited water and pressure gauge installed at the surface in order to determine if there is any leakage of the tubing or packer.

Actual water injection will commence January 1, 1969.

18. I hereby certify that the foregoing is true and correct
