RE: Tipton & Denton
Delaware St. #1
Sec. 36, T 19~~S~~^S, Range 34E
Lea County NM

Attn: Jerry Sexton

Dear Jerry,

As per our telephone conversation Tipton & Denton has perforations open at 5040-5048 and 5100-5114 that was opened 10-23-90 and fractured w/30,000 gal. - 53,000 # sand. The well produced until 1993 and was down to less than 1 B.P.D oil not water. May, 1995 I perforated the upper zone in the Delaware @ 5724-5766. This zone is presently making 23 b.o. and 16 b.w. per day. I want to open perfs at 5906-5920 and treat these perfs. and produce the zone at 5724-5766 and 5906-5920 together.

Thank you

Dwight A. Tipton
