12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

There are two small overflow pits located on the lease in a close proximity to each other. The pits are shallow, unlined earthen pits. The first one is 18 feet by 15 feet and the other is 21 feet by 15 feet. It appears the pits contained old drilling fluid materials. We propose to remediate the pits by excavation and dilution. On-site samples will be analyzed to insure that the closure falls under OCD guidelines for Total Petroleum Hydrocarbons (TPH) and BTEX limits.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
