Re: State "CV" Wells No. 2 and 2Y
State "CV" Lease
Lea County, New Mexico

The State of New Mexico
Energy and Minerals Department
Oil Conservation Commission
P. O. Box 2088
Santa Fe, NM 87501

Gentlemen:

Amoco Production Company requests approval to produce our State "CV" Well No. 2Y on a 40 acre proration unit with our State "CV" Well No. 2. Currently State "CV" Well No. 2, located 1750' FNL and 330' FWL, Section 25, T-17-S, R-35-E, Lea County, New Mexico, is producing from the Vacuum Abo Reef pool at a rate of 20 bbls oil, 7 bbls water, and 51 MCF per day. Our State "CV" Well No. 2Y, located 1960' FNL and 540' FWL, Section 25, T-17-S, R-35-E, Lea County, New Mexico is perforated in the Vacuum Abo Reef and is currently shut-in.

State "CV" Well No. 2Y was shut-in due to parafin buildup and at that time we returned to producing State "CV" Well No. 2. The NMOCDC, Hobbs, requested that cement be circulated on the long string in the State "CV" Well No. 2Y in order to stop a salt water flow from the intermediate casing. While completing the requested cement work the decision was made to attempt to restore State "CV" Well No. 2Y to production capability. State "CV" Well No. 2Y was subsequently acid fraced with the use of a zylene solution to clear up the parafin problem. Approximately 14 bbls oil were swabbed in a two day period following the completion of the acid job.

Page Two

Both the State "CV" Well No. 2 and Well No. 2Y will be marginal producers and the pool will be more effectively and efficiently drained by producing both wells. Attached is a map and a location plat for each of the subject wells.

Yours very truly,

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION AT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

Operator Amoco Production Company			Lease State CV		Well No. 2
Unit Letter E	Section 25	Township 17-S	Range 35-E	County Lea	
Actual Footage Location of Well: 1750 feet from the North line and 330 feet from the West line					
Ground Level Elev.	Producing Formation Abo		Pool Vaccum Abo Reef	Dedicated Acreage: 40 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
