Re: TP State # 2
Vacuum Abo Reef pool
Lea County, New Mexico

Gentlemen:

Attached hereto are completions forms on the above captioned well. Also enclosed is a request for allowable to be effective January 18, 1972. As this well is capable of producing top allowable, the allocation for the Featherstone # 1 Texas Pacific State should be cancelled, as both wells are located on the same proration unit.

The # 2 TP State was drilled on a farm-out from Featherstone and they are agreeable to having the allocation for the # 1 well cancelled.

Very truly yours,

TOM L. INGRAM
