

PUBCO SHIPP #2

Core #1 11440-81

- 11440-41 Ls. lt-mgry, fn xln, good - ex vuggy - pp. Ø calcite xls lining vuggs- vuggs from pencil lead size to finger size uneven wh fluor, good cut.
- 11441-42 Ls, lt gry, fn xln, good - ex vuggy, pp Ø, some light yel stain around vuggs, calcite xls lining vuggs, even white fluor, good cut.
- 11442-43 Ls AA w/good scatt vuggy Ø pp - finger size, good even wh fluor, good cut, sli odor oil and some tan stain around vuggs - tr platy algae
- 11443-44 Ls AA w/good - ex vuggy Ø, calcite xls lining vuggs, lt yel stain in vuggs, good odor, good white uneven patchy fluor. Tr platy algae.
- 11444-45 Ls, lt gry, fn xln dnse w/good pp - small vuggs, some calcite xls on vuggs, light yellow stain on vuggs - patchy wh fluor, good cut, sparry calcite inclusions.
- 11445-46 Ls, AA w/scatt small vuggs & pp, calcite xls lining vuggs, vuggs contain drilling mud, even to patchy fluor white around vuggs, sli ordor oil, tr forams.
- 11446-47 Ls, mgry, fn xln, dnse w/scatt small vuggs, calcite xls, some black DOS? in several vuggs, good white even to patchy fluor, good cut, micro foss.
- 11447-48 Ls, mgry AA w/scatt pp - sm vuggs, even lt stain around vuggs, calcite xls lining vuggs, good wh even to spotty fluor, good odor oil.
- 11448-49 Ls AA w/good - ex vuggy Ø, pencil lead to finger size, good light yellow tan stain around vuggs, calcite xls lining vuggs, good odor oil, tr blk stain on vuggs, DOS?, good even to patchy fluor, good cut, fossiliferous, platy algae.
- 11449-50 Ls mgry fn xln dnse w/good - ex scatt pp, small vuggs, lt yellow tan stain around vuggs, sli odor oil, good even to splotchy fluor, good cut, foss, blade algae.
- 11450-51 Ls, mgry, fn xln, dnse w/scatt large vuggs to pp Ø, lt stain around vuggs, good whiet splotchy fluor, good cut, fossils - forams & fossil frags.
- 11451-52 Ls AA w/good to ex pp - small vuggs, lt stain around vuggs, good odor oil, calcite xls lining vuggs, good wh splotchy fluor, good cut - abndt brachs and other fossil debris, highly fossil - brachs , fenestrate bryozoans.
- 11452-53 Ls, lt tan gry, fn xln, dnse few occ scatt pp Ø, good wh fluor around pp and along hairline fracs.
- 11453-54 Ls, lt tan gry, fn xln, dnse, w/flu scatt pp Ø, relatively tite, some wh fluor on poss fracs, scattered micro foss bryozoans.
- 11545-55 AA
