17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Cable tool rig moved on and spudded well at 11:00 A.M. 10-31-74. This operation has continued through the intervening period. It is now our plan to move rotary rig on at a total depth of this date of 329'. Rotary rig should be in operation on or before 2-26-75. Delay has been due in part in lack of available rig. We see no changes to be made from the original Form C-101, Notice of Intent to Drill, at this time.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
