11. Plans for restoration of surface:  
The pits will be filled and leveled. All unused area will be restored to as near the original condition as possible.
12. Any other information that may be used to evaluate the impact on environment:
  - (a) The working pits will be lined with plastic to contain its contents.
  - (b) A recording pit level indicator, a pit volume totalizer and a flow line sensor will be installed before reaching the Wolfcamp formation.
  - (c) The blowout preventers will be tested to the rated pressure before reaching the Wolfcamp.
  - (d) Blowout prevention drills will be conducted to insure that each crew is properly trained to carry out emergency duties.
  - (e) Accumulators will maintain a pressure capacity reserve at all times to provide for repeated operation of hydraulic preventers.

Yours truly,

H. J. Bernard
