Re: Supco State #1
North Vacuum Abo
Sec-17-17S-34E

Dear Jerry:

The attached C-104 reflects a recent G.O.R test run by Larry Davis on the captioned well. Production has stabilized to the point that we hardly have enough casinghead gas to operate the heater treater. As a result, there is no gas available for sale from the lease. Subsequent to possibly restimulating this well to increase production, a new test will be filed at that time.

Very truly yours,

James G. Ellis
Chief Petroleum Engineer
