On 10/28/76 we told the surveyor to stake the above well 1650' FSL and 990 FWL and we assumed that he had staked it there. We subsequently filed our proper forms showing that location. When we were at 2863', 2/1/77 the surveyor informed us that the location is as shown above (a copy of his letter you already have) and there we completed this well.

Re: Location #2, Tonto lease
Lea County, New Mexico

Dear Walt:

We have had the occasion to check the location of the captioned well that we surveyed for you on November 3, 1976, and find that the footage reported to you on that date was erroneous.

We submit herewith a corrected Form C-102 that reflects the proper footage to be 1925 feet from the South line and 330 feet from the West lines of Section 30, T-19-S, R-33-E, Lea County, New Mexico.

The elevation remains the same on this "second" location in that it was run properly off the bench mark.

(By way of explanation of this error, our field party made a miscalculation in coming off your #1 well to survey this #2.)

We regret any inconvenience this may cause you and offer our services whatever they may be worth in correcting this error.

Copies of the corrected #2 plat as well as the erroneous one are inclosed for your information.

Please advise if we can be of further assistance to you in this matter.

Very truly yours

MAX A SCHUMANN JR
