Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On 7/15/78 we plugged the above well with 100 sx of class H cement through 2 3/8 tubing on bottom. Left overnight and in morning cement had fallen 120', still well up inside 7" pipe. We filled to 1450' with gel (25 sxs/100 bbl.) and placed another 100 sxs of class H and fill to surface with gel. Last we put 10 sx plug and a well monument.
