Extension of Time

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

As it was not possible to commence drilling operations on the subject location on or before the expiration date of 7/27/78, a 90-day extension of time is requested.

Unless Drilling Operations have
Commenced, this drilling approval
Expires 10-27-78

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations, particularly with regard to local, area, or regional operations. The number of copies to be submitted, and the number of copies retained from the local Federal and/or State office.

General: This form is designed for submitting proposals to purchase Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on air rights, Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on air rights, particularly with regard to local, area, or regional regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office. Consult local requirements.

Item 4: If there are no applicable State requirements, locations, State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment shall include reasons for the abandonment; data on any former or present productive zones, or material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
