Gentlemen:

We are enclosing in duplicate Form C-122, "Multipoint and One Point Back Pressure Test for Gas Well," for the Union Oil Company of California operated Maduro Unit Federal Well No. 1. The subject well is located in Section 29, Township 19 South, Range 33 East, Gem Morrow Gas Pool, Lea County, New Mexico.

The original Form C-122, showing only a one point test, was mailed to you with our letter dated August 29, 1979, stating that a four point would be submitted at a later date. Initial delivery of gas was made to Llano, Inc. on January 28, 1980, enabling this four point test to be taken into a sales line rather than flaring the gas.

Should there be any questions pertaining to this matter, please do not hesitate to contact this office.

Yours very truly,

A handwritten signature in cursive script, appearing to read "L. F. Thompson".

L. F. Thompson  
District Operations Manager
