17. DESCRIBE (IN BRIEF) OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any operations. If well is completely drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to the work.)

On 9/25/80 we cemented 225' of 13 3/8" casing with 300 sacks of Class "C" cement with 2% CaCl and 1/4 # Flocele/sx. Did not circulate, therefore, we put 60 feet of 1" tubing in between pipe and hole, hit solid cement and brought cement up into the cellar with an additional 140 sacks of Class "C" cement.
