(NOTE: Report results of multiple completion of Well
Completion of Intervention, Repair and Log form.)13. PARTIES TO WELLS (A completed operations (currently fill in pertinent details, and give pertinent dates, including estimated date of starting any
operations, if well is completely drilled, give subsurface locations and measured and true vertical depths for all markers and other pertinent
data and logs.)

On 9/25/80 we cemented 225' of 13 3/8" casing with 300
sacks of Class "C" cement with 2% CaCl and 1/4 # Flocele/sx.
Did not circulate, therefore, we put 60 feet of 1" tubing
in between pipe and hole, hit solid cement and brought
cement up into the cellar with an additional 140 sacks
of Class "C" cement.
