No. of Acres:

80 acres

Pooling Provisions:

5. Lessee is hereby granted the right to pool or unitize this lease, the land covered by it or any part thereof with any other land, lease, leases, mineral estates or parts thereof for the production of oil, liquid hydrocarbons and all gases and their respective constituent products, or any of them, such pooling to be into a unit or units not exceeding 40 acres in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas well, plus a tolerance of 10% thereof, provided that if any Federal or State law, Executive order, rule or regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable on acreage per well, then any such units may embrace as much additional acreage as may be so prescribed or as may be used in such allocation or allowable. The term "gas well" as used in this paragraph shall be deemed to include wells producing, or capable of producing, natural gas, gas condensate, gas distillate or any gaseous substance, as said terms, or any of them are commonly understood in the oil and gas industry, or as they may be used by any governmental authority. Lessee shall file written unit designations in the county in which the premises are located. Such units may be designated either before or after the completion of wells. Drilling operations and production on any part of the pooled acreage shall be treated as if such drilling operations were upon or such production was from the land described in this lease whether the well or wells be located on the land covered by this lease or not. The entire acreage pooled into a unit shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if it were included in this lease. In lieu of the royalties herein provided, lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.
