Gentlemen:

Enclosed are copies of approved completion forms for your Consolidated "A" State Well No. 1 located in Unit 0 of Section 8, T-17-S, R-37-E, and an allowable is being assigned for the well.

You will note, however, that the last deviation reported is at 10,840', and we are wondering if there is a valid explanation for this. Unless there is a valid explanation, it may be necessary to run a directional survey.

Please let us hear from you immediately regarding this matter.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District 1
