(NOTE: Report results of multiple completion on Well
Completion or Abandonment Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and
proper work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and notes perti-
nent to this work.)

On 3/26/82 we filled the hole from TD of 3185' to 2485' ,with 60 sxs of Class H neat, through 2 3/8" tubing. We left it for 18 hrs (overnight) and tagged it with tubing in the morning. The plug was there. We raised the tubing 3' and filled the hole with 50 sxs of fresh H₂O gel and fresh H₂O. We then pulled the tubing to 1400' and set a 200' plug with 15 sxs Class H cement. We will cement the top with 15 sxs and place marker by hand.

ON 3 26 82
