Gentlemen:

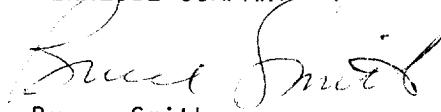

Enclosed is a preliminary potential test for the subject well. Completion operations have been temporarily discontinued pending reserve and deliverability evaluation of the subject well by natural gas purchasers in the area.

An acid stimulation is scheduled for the well. Pennzoil is deferring the stimulation until after the well is put on line in order to avoid the possibility of shut-in damage to the well.

If you have any questions or desire additional information concerning the subject well please contact me.

Sincerely,

PENNZOIL COMPANY
