RE: BELL STATE #1
UNIT P, S17-T19S-R35E

Gentlemen:

An inspection was made on the above referenced plugged well site on October 24, 1991 by an Oil Conservation Division Field Representative.

Before the location can be released, the following work is required to be completed.

1. Pit needs to be filled and/or levelled.
2. The tank battery must be removed from the location.
3. Cellar needs to be filled.
4. Anchors need to be removed from the location.

When these items have been completed, please notify our OCD office by signing the bottom portion of this letter and return it to the address stated above or, contact Ray Smith at 505-393-6161.

Please check the location thoroughly to assure that all items listed above have been completed before contacting our office for reinspection, so that unnecessary trips can be avoided.

Very truly yours,

JERRY SEXTON
District I Supervisor
