17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

The above captioned well produces approximately 5 mcfs per day, due to the low amount of production it is uneconomical to hook up to a pipeline. Therefore, Harvey E. Yates Company requests an approval to flare the above stated gas.
