Exxon would like to plug back this well from the Humble City Wolfcamp Pool to test the Midway ABO Pool. If the Midway ABO is nonproductive, the wellbore will be plugged and abandoned. We would like to have the testing and completing or plugging done before 1986 year end. Therefore, verbal approval of the attached C-101 and C-102 is requested. Please phone your response collect to Stephen Johnson with Exxon's Regulatory Affairs Group at (915) 686-4472 at your earliest convenience.
