RE: Downhole Commingle Allocations
Lovington Deep State
1-A, Sec 1-17S-35E

Gentlemen:

As per the above referenced well, we have not received a letter setting out the allocations on this well. Apparently this well has been produced downhole commingled since January of 1994. This office has not received the appropriate paper work to establish the downhole commingle.

In order to establish this well for downhole commingle, please reference Order No. R-9917 in a letter stating the pools involved along with the oil and gas allocations for each zone. For this well to remain producing as provided in the order, please comply within 14 days or this well will be shut-in. If you have any questions, please contact Nelda at (505) 393-6161 Ext. 101.

Very truly yours,

OIL CONSERVATION DIVISION
