PO Box 1980  
Hobbs, New Mexico 88240

ATTENTION: Jerry Saxton

Dear Mr. Saxton:

This letter is to confirm our telegram of May 18, 1987. Mississippi Chemical Corporation has been approached by Pennzoil Co. to drill a gas test well at 660'FEL and 1980'FSL of Sec. 36-19S-33E. Mississippi Chemical holds potash leases within one mile of this proposed drill location but will not protest the drilling of this well.

We appreciate your continuing efforts to safeguard the interests of the potash and oil and gas industries.

Sincerely,

MISSISSIPPI CHEMICAL CORPORATION

Randy Foote  
General Manager
