RE: State 22 #1-D Sec 22, T17S,R35E

Larry, according to the attached sundry notice the morrow zone was perforated and tested in 1991. No completion report was ever submitted and the well is still producing with production being reported under the South Shoe Bar Atoka.

Please file sundry report indicating how the Morrow zone was isolated.

I am trying to clean up my pending file.

Thanks,

Evelyn
