Re: Gas Connection Notice
C. W. Trainer
Betty State #2-I
Sec. 16, T17S, R35E

Dear Mr. Sexton:

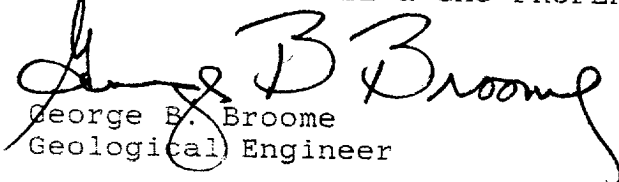

We are in receipt of your letter of September 19, 1988 requesting that a gas connection notice be filed with your office for the captioned well.

We will be the transporter of gas from the referenced well when it produces gas. At the present time, the well has not produced any gas into the pipeline. The operator attempted to four-point test the well down the line on 8/26/88 and the well would not flow into the line due to very low flowing pressures. The operator is currently attempting to frac the well and we will report the gas connection as soon as we get a commercial flow of gas from the well.

Should anything further be necessary at the present time, please let me know.

Very truly yours,

T. H. McELVAIN OIL & GAS PROPERTIES

George B. Broome
