Gentlemen:

Mobil Exploration & Producing U.S. Inc. (MEPUS), as Agent for Mobil Producing Texas & New Mexico Inc., respectfully requests authority to recomplete the subject well to an undesignated field, at an unorthodox location.

This request is necessary, as required by the South Shoebar-Atoka Gas Pool Field Rules, due to the well being less than 660 feet from the side of the proration unit.

The following items are being submitted, in triplicate, in support of this request:

1. Form C-101 - Application for Permit to Drill, Deepen or Plug Back;
2. Form C-102 - Well location and acreage dedication plat;
3. Map showing Offset Operators;
4. Copy of Certified letter to Offset Operators.

A copy of this letter and attachments are being furnished to the Offset Operators by Certified Mail, as notice of this application.

The original location was called at 660' from the side of the proration unit but had to be moved 100' Northeast due to the presence of a Gulf pipeline running under the location. Please see the attached sketch. For this reason MEPUS requests that this unorthodox location be administratively approved.
