(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Siete Oil & Gas Corporation proposes to build production facilities for the recently completed Yuma Federal #1 on the Quanah Federal #1 battery facility site located in Sec. 14, T18S, R32E, SE $\frac{1}{4}$ SW $\frac{1}{4}$. This proposed off lease storage will enable both Delaware producers to share the existing Quanah water disposal transfer system. Each well however, will be produced into separate oil storage tanks and casinghead gas metering facilities.

Off Lease Storage/Measurement

Conditions of Approval

Approval of off lease storage/measurement and sales is subject to the following conditions of approval:

1. This agency be notified of any change in your sales method or location of the sales meter.
2. This agency shall be notified of any spill or discharge as required by NTL-3A.
3. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the surface or subsurface environments.
4. This approval does not constitute right-of-way approval for any off lease activities. You need to submit within 30 days an application for right-of-way approval to the Realty Section in this office if you have not already done so.
